

# T&N TECH TALKS REQUIREMENTS AND EXAMPLE

DEADLINE: JANUARY 12, 2018

## REQUIREMENTS:

**Title:** *Limited to 140 characters, including spaces and punctuation*

The title should accurately and concisely reflect the submission content. Titles should follow the title case rules and may be edited by T&N editorial staff.

**Categories:** Choose the submission category from those listed below:

- Cataract
- Cornea
- Glaucoma
- Pediatric
- Refractive
- Retina
- Supplementary

**Synopsis & Educational Value:** *Limited to 430 characters, including spaces and punctuation*

The description should include (2) components: (1) the topic to be presented, and (2) the format for the presentations, i.e. power-point; didactic; video.

**Learning Objectives:** *Limited to 350 characters, including spaces and punctuation.*

The educational objective should be a succinct statement of what the attendee can expect to have learned by the completion of the course.

## EXAMPLE:

**Title:** Review of EDI-OCT and Case of Sympathetic Ophthalmia

**Presenting Author:** Sarah Armstrong, CRA, OCT-C, FOPS

**Synopsis & Educational Value:** Presentation will review the current uses of enhanced depth imaging optical coherence tomography (EDI-OCT) and detail a rare case of sympathetic ophthalmia in which EDI-OCT was used to determine treatment success.

**Learning Objectives:** Attendees will learn the steps in performing EDI-OCT and better understand why it is clinically relevant.
